BRAND STORY

Oioli began 60 years ago on Orta lake's shore; the piedmontese land of high quality taps and fittings, when the young Eusebio Oioli started producing and commercialising his products.

Simple taps, characterised by essential design and produced with great care. As all stories of those years, this historical company started with a life of privations, hard and tough work. A tradition that has not come to an end, as today, we can see the third generation, Oioli; a factory in continuous development.

The production is organised in a catalogue of more than 35 complete series, in which have been created after rigorous research of style and functionality. Thanks to the new settlement in Gozzano and to an efficient commercial network, the factory is growing on all national and international markets. offering an excellent product branded "Made In italy" and studied after intelligent and professional work.

Quality and italian genius/innovation are appreciated and recognized all over the world; this encourages us to keep on producing and feeling proud of our work, which is an old tradition.
